

uPerForum Boulder

Join us September 15-17, 2026, in Boulder, Colorado to unlock the future of health IT enablement

In today's rapidly evolving health IT environment, education teams are expected to do more than deliver education. They must drive adoption, influence change, and scale enablement strategies across increasingly complex systems. uPerForum Boulder is designed specifically to meet that challenge.

This year's "**Be Boulder**" theme centers on exploration, elevation, and pushing boundaries. Over three days, attendees will engage with forward-thinking peers, participate in hands-on sessions, and walk away with actionable strategies to advance health IT education and support.

Whether your goal is to improve adoption, modernize training delivery, or elevate your strategic influence, uPerForum serves as your basecamp for meaningful progress.

Why You Should Attend

uPerForum was created to bring together healthcare education leaders to learn, share, and solve challenges collaboratively. It continues to be a high-impact environment for gaining practical strategies and building lasting professional connections.

Attending uPerForum Boulder enables you to:

1. Strengthen Adoption & Change Management Strategies

- Learn how leading organizations drive end-user engagement and adoption
- Explore how education leaders are earning strategic influence and leadership alignment
- Gain insight into communication tactics that reduce noise and increase clarity

2. Improve Program Efficiency and Scalability

- Discover proven approaches to scaling and sustaining enablement programs
- Learn authoring and administrator best practices to optimize uPerform usage
- Understand how to build adaptive, role-based training models

3. Leverage Innovation to Drive Outcomes

- See how organizations are using uPerform to uncover insights and improve performance
- Explore emerging training strategies that reduce time to competency and increase user satisfaction
- Get a preview of future innovation through the uPerform Innovation Showcase

4. Learn Directly from Peers

- Hear real-world success stories and breakthrough strategies from fellow healthcare systems
- Participate in discussions around shared challenges and practical solutions
- Take away immediately actionable ideas to implement within your organization

5. Build a High-Value Professional Network

- Connect with peers, thought leaders, and uPerform experts
- Exchange ideas and benchmark strategies with organizations at various stages of maturity
- Build relationships that extend beyond the event and support long-term success

The mix of **health organizations sharing their use, leadership sharing the value, and roundtable discussions** was all wonderful.

It was a really great event that **I was able to take a lot of ideas away and bring back to my team.** I really hope that our manager can put it in the budget for more of us to attend next year

I learned so much from your team and the other organizations represented and got so much value out of the event. **Truly a great day of learning and sharing all around!**

What's New

uPerForum Boulder is introducing new formats and topics to maximize value:

Dual-Track Breakout Sessions: Content is tailored by role and responsibility, ensuring sessions are relevant and actionable

uPerform Innovation Showcase: Get the first look at the latest innovations shaping the future of digital adoption and training
