

Session Overview

Session Title: Innovation in Aqua Feeds and Feeding

Date and time: September 7, 2023 at 9:00 am to 10:20 am

Presentations: 4 x 15 minutes each (plus 5 minutes each for questions)

Overview:

Success in fish farming hinges on a crucial factor: what and how the fish are fed. As the aquaculture industry continues to evolve, one sector stands at the forefront of innovation—the aquaculture feeds domain. Constantly pushing boundaries, this sector strives to identify new feed ingredients, fine-tune production practices, and revolutionize feeding techniques.

Join us as we highlight some of the latest innovations transforming aquaculture feeds. This session will showcase the advancements that contribute to improved performance, optimal fish health, and unparalleled product quality. With an array of captivating topics, we anticipate diving into areas such as:

1. Unleashing the Power of Novel Feed Ingredients
2. Innovating Feeding Practices & techniques
3. Sustainability and feeds
4. Research areas like genomics or biotechnology
