

Title: Material Management and Recovery Session

Date and time: September 6, 2023 at 11:00 am to 12:30 pm

Presentations: 5 x 15 minutes each (plus 5 minutes each for questions)

Overview:

The responsible and effective management and recovery of fish byproducts and end-of-life fishing and aquaculture gear creates value and supports environmental stewardship. The Newfoundland and Labrador aquaculture industry has adopted a progressive approach to investigating and implementing solutions.

The aim for this session is to highlight the status of material management and recovery initiatives and some of the goals, knowledge, challenges, achievements, and emerging opportunities.

Session Chairperson:

Jonathan Kawaja
Environmental Scientist
Department of Fisheries, Forestry and Agriculture
